About Me

Frontend Developer specializing in building responsive, high-quality web interfaces using HTML, CSS, JavaScript, React.js, Tailwind CSS, and Bootstrap. Committed to writing clean, maintainable code and delivering seamless user experiences through modern development practices.

Experience

Developers Hub (Pvt.) Ltd.

March 2025-May 2025

Remote Internship, Islamabad

- Designed a responsive e-commerce website with a focus on intuitive, cross-device user experience.
- Developed the Nexis Business App, connecting entrepreneurs and investors for funding opportunities.
- Implemented complete UI in ReactJS, including responsive design, registration/authentication (Login/Signup), and a dynamic chat system for user interaction.
- Leveraged modern tools such as Radix UI, clsx, cn, and twmerge to build consistent and flexible UI components.
- Collaborated remotely with a team of developers, maintaining clear communication and steady project delivery.

SELECTED PROJECTS

Online Shopping Store

Tech Stack: React.js, Redux, Tailwind CSS, React Router, Framer motion, AI powered chatbot

Fully responsive Ecommerce store with functionalities like cart management, checkout, user authentication, AI chatbot that assist users for enhanced customer experience. Dynamic landing page and detailed single product page.

Nexis Business App

Tech Stack: React.js, React Router, Tailwind CSS, Radix UI, cn, clsx, twmerge

Nexis Business App is a platform that connects entrepreneurs and investors. User can register either as an entrepreneur or investor. With defined chat system investors and entrepreneurs can interact with each other.
